ABOUT US

At The Chess Lifestyle, chess has never been just a game for us. It's an emotion, the quiet thrill of a plan coming together and the ache of a loss that teaches you more than any win. Every move you make sharpens your focus, strengthens your memory, and trains you to stay calm when the pressure is on.

On the board, you learn patience, you learn to own your mistakes, and you learn that getting back up is part of the game. In a world that never stops moving, chess gives you a place to slow down, think deeply, and hear your own mind.

This is more than a hobby for us, it's a way of living, and we're here for every player who feels it too, from first-move beginners to lifelong champions.

Join us in Noida on October 31st,
2026, at Raghav Global School.
